## **Goals – music as a life time companion.**

Simply Music has four goals – to produce students who:

Experience playing as a natural self-expression

Have the ability to play a huge repertoire covering classical, contemporary, blues, jazz and accompaniments

Have the ability to self generate. This includes developing a strong foundation in music reading and theory, as well as the ability to compose, improvise and arrange music

Have a positive, self-affirming experience with music learning.

My philosophy:

Is to teach Simply Music in a way that inspires and creates a culture of joy for music for everyone in their life. I experience joy in learning and teaching music for both myself and those I guide in their music journey.
